

## ABOUT COMPANY

# WHAT SETS OUR PRODUCTS APART

Built by professionals with more than five decades of pump and dredging experience, Anaconda Pipe and Hose was created to solve the challenges of short-term, high-demand projects.

Anaconda introduced short-term rentals for HDPE pipe and slurry hose, along with easy-to-install systems that eliminate the need for complex fusion work. Our quick-disconnect designs reduce labor costs, reduce downtime, and provide customers with a practical, cost-saving alternative to traditional pipe-and-hose setups.

- ✓ Menu-based range covering HDPE pipe, slurry hose, and lay flat hose
- ✓ Suitable for dredging, mining, construction, municipal, and agricultural needs
- ✓ Products built for abrasion, pressure, and long service life
- ✓ Quick installation with compatible fittings

## HDPE PIPE

### HDPE PIPE RANGE

Durable HDPE pipe options designed for efficient installation and dependable performance.

#### HDPE DR11 PIPE

- High strength for pressurized applications
- Suitable for dredging, pumping, and industrial fluid transfer

#### HDPE DR17 PIPE

- Flexible and dependable for medium-pressure setups
- Ideal for long runs and temporary pipelines

#### QUICK DISCONNECT FITTINGS

- Fast connection systems
- Saves installation time and reduces field labor

## SLURRY HOSE

### INDUSTRIAL SLURRY HOSE

Abrasion-resistant hoses designed for sand, silt, slurry, and high solids movement.

#### 4 INCH SLURRY DISCHARGE HOSE

- Compact and easy to handle
- Ideal for small to mid-sized slurry transfer

#### 6 INCH SLURRY DISCHARGE HOSE

- Most versatile for dredging and construction
- Reinforced for extended life

#### 8 INCH SLURRY DISCHARGE HOSE

- High volume material movement
- Strong construction for continuous operation

#### 10 INCH SLURRY DISCHARGE HOSE

- Supports large flow rates
- Built for tough industrial conditions

#### 12 INCH SLURRY DISCHARGE HOSE

- Heavy-duty for mining and large-scale dredging
- Maximum abrasion resistance

## FLAT HOSE

### LAY FLAT HOSE

Lightweight hoses for fast deployment, water transfer, and general site use.

#### AGRICULTURE

Drag Hose: Heavy-duty hose for long-distance field liquid transfer.

Premium 200: Durable hose designed for reliable agricultural water movement.

#### FIREFIGHTING

Redskin Blueskin: High-strength firefighting hose built for fast deployment.

#### INDUSTRIAL

Aqua Guard: Lightweight hose for clean water and general industrial applications.

Armour Guard: Rugged hose designed for higher-pressure industrial operations.

Wat Hog: Tough utility hose for washdown, dewatering, and site maintenance.

#### MILITARY

Fuel Hose: Reliable hose for safe and efficient fuel handling in field conditions.
