REDSKIN/BLUESKIN

General Industrial Hose

Respond to fires quickly with Anaconda Redskin/ Blueskin. The hose is a lay-flat, lightweight, flexible firehose specifically designed for industrial fire protection. Bringing tough, versatile firefighting power to departments in industrial situations. Redskin/ Blueskin is UL approved and features a unique through-the-weave, one-piece construction that will not delaminate. The synthetic reinforcement is totally encased in a nitrile-rubber cover and lining which is resistant to fuels, oils and chemicals. Dependable, lay-flat and flexible, Anaconda Redskin/Blueskin firehose is specifically engineered for industrial fire protection.

UNIQUE DESIGN FEATURES:

- Lower friction loss
- Reduces pumping costs
- Higher flow rates and further pumping distance
- Fast deployment and retrieval

REDSKIN/BLUESKIN

AMERICAN MADE TOUGH.™

FEATURES:

Extreme Durability
Hose meets or exceeds specifications for heat and kink resistance.

Durable Construction
Lay-flat, lightweight and flexible design is really suited for industrial fire protection and in-plant apparatus.

Less Maintenance
No drying time required – just wash and store.

Long Service Life
Nitrile-rubber cover eliminates additional weight issues caused by water pick up during use and greatly increases abrasion resistance, providing a long service life. The hose is designed to resist cracking mildew and rot, which translates to a long service life.

Chemical-Resistant
Resists fuels, oils and a wide range of chemicals and bases.

Best in Class Adhesion
Best in class adhesion provides enhanced hose performance and increased hose life.

Exceeds Standards
Redskin/Blueskin® is manufactured to meet or exceed NFPA 1961 standard.

TECHNICAL SPECIFICATIONS:

Size		Pressure						Bowl Size	Weight (50'/15M)		Coil Diameter (50'/15M)	
		Service		Proof		Burst
